Letters in reserve projects

These letters meet all legal requirements and were submitted by eligible contributing partners participating in projects that are currently in the reserve list. While these contributions will only be counted if the projects are ultimately invited to grant agreement preparation and implemented, we recommend accepting the letters, as we continue efforts to secure additional resources to fund these projects on the reserve list.

The total value of declared contribution is **EUR 71.756.815**. Two reserve projects, ADVANCE-TB and MIRACLE, account for roughly one-third of the total contributions each.
