Dear Sir,

**LETTER OF SUPPORT - GHANA FIELD EPIDEMIOLOGY AND LABORATORY TRAINING
PROGRAMME**

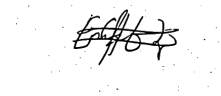

The Ghana Field Epidemiology and Laboratory Training Programme (GFELTP) is delighted to affirm its support for the application titled “**West African Networks of Excellence for TB, AIDS and Malaria (WANETAM- 4)**” in response to the HORIZON-JU-GH-EDCTP3-2025-03-NETWORKS-01-two-stage: Global collaboration action for strengthening the Regional Networks of Excellence and Epidemic Preparedness Consortia.

The GFELTP is a competency-based training programme which trains public health workforce in Anglophone West Africa at the frontline, intermediate and advanced levels in field epidemiology and laboratory management using the One-Health Approach. Noguchi Memorial Institute for Medical Research (NMIMR) supports the laboratory capacity building aspect of the FELTP training and is pivotal in laboratory diagnostic support for the country during outbreak responses in general.

The GFELTP is therefore pleased to support NMIMR and WANETAM – 4's application to build capacity for preparedness and response.

Thank you.

Yours faithfully,

A handwritten signature in black ink, appearing to read 'Ernest Kenu', is written over a faint, dotted rectangular stamp.

Professor Ernest Kenu (MBchB, MPH, MGCPS, PhD)

Director – Ghana Field Epidemiology and Laboratory Training Programme (GFELTP)
