London, September 1st, 2025

Dear Sir,

On behalf of Malaria Consortium (MC), an international charity and independent research organisation, headquartered in the UK and registered under Charity Number 1099776, and in accordance with Council Regulation (EU) No 2085/2021 of 19 November 2021 establishing the joint undertakings under Horizon Europe, and specifically Article 9 therein, I am pleased to submit this application to become a contributing partner to the Global Health EDCTP3 Joint Undertaking (Global Health EDCTP3 JU).

Established in 2003, MC is one of the world's leading non-profit organisations specialising in the prevention, control and treatment of malaria and other communicable diseases among vulnerable populations. With a strong focus on designing and implementing cutting edge research, as well as capacity building in low- and middle-income countries, MC shares common objectives with the Global Health EDCTP3 JU, including strengthening clinical research capacity in Africa, promoting equitable North–South partnerships, and contributing to global epidemic preparedness and response.

The proposed involvement of MC will focus on strengthening clinical research capacity and advancing innovative approaches for the prevention, diagnosis, and treatment of infectious diseases of major public health importance in sub-Saharan Africa. Specifically, MC will support stakeholder and policy dialogue under Work Programme 2 – Malaria. Deliverables will include contributing to stakeholder engagement and policy dialogue meetings relevant to the work programme and producing stakeholder engagement meeting reports.

We estimate the total value of this contribution to be composed of both in-kind support and financial resources charged to EDCTP.

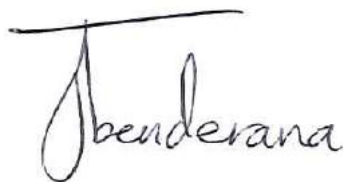

We hereby confirm the following commitments:

1. Regulatory compliance: We will comply with the Horizon Europe Regulation (EU) No 2021/695; Council Regulation (EU) No 2085/2021 establishing the joint undertakings under Horizon Europe; the Model Grant Agreement for Horizon Europe; and applicable Global Health EDCTP3 JU rules, including the relevant work programmes and call conditions.
2. Confidentiality: We will treat all information received in the context of our involvement as a contributing partner to the Global Health EDCTP3 JU as strictly confidential. This obligation applies in particular to call topic preparation and publication, proposal submission and

evaluation, and consortium formation. Confidential information will not be disclosed to any external legal entity without explicit authorisation from the Global Health EDCTP3 JU. Internal dissemination will follow a strict “need-to-know” principle.

3. Commitment: We are confident in our ability to fulfil the above commitments and recognise that the Global Health EDCTP3 JU will allocate resources to the above topics on the basis of these commitments.
4. Costing basis: The value of our contribution will be calculated in accordance with Article 6 of the Horizon Europe Model Grant Agreement.
5. Additional modalities: We accept that further modalities regarding the provision of our contribution may be defined in subsequent agreements or documents, such as a funding agreement and topic text.

Yours faithfully,

A handwritten signature in black ink, appearing to read 'Tibenderana', with a horizontal line above it.

James Tibenderana
