

Global Health
EDCTP3

**The African and European research
partnership on infectious diseases**

Who we are

Global Health EDCTP3 is a partnership between the European Union and the EDCTP Association, uniting over 40 African and European countries. We tackle global health challenges in sub-Saharan Africa through supporting **collaborative research** activities and strengthening the clinical research ecosystem.

We fund **cutting-edge clinical research and innovation** to develop new medicines, vaccines and diagnostics that can save lives across sub-Saharan Africa and around the world.

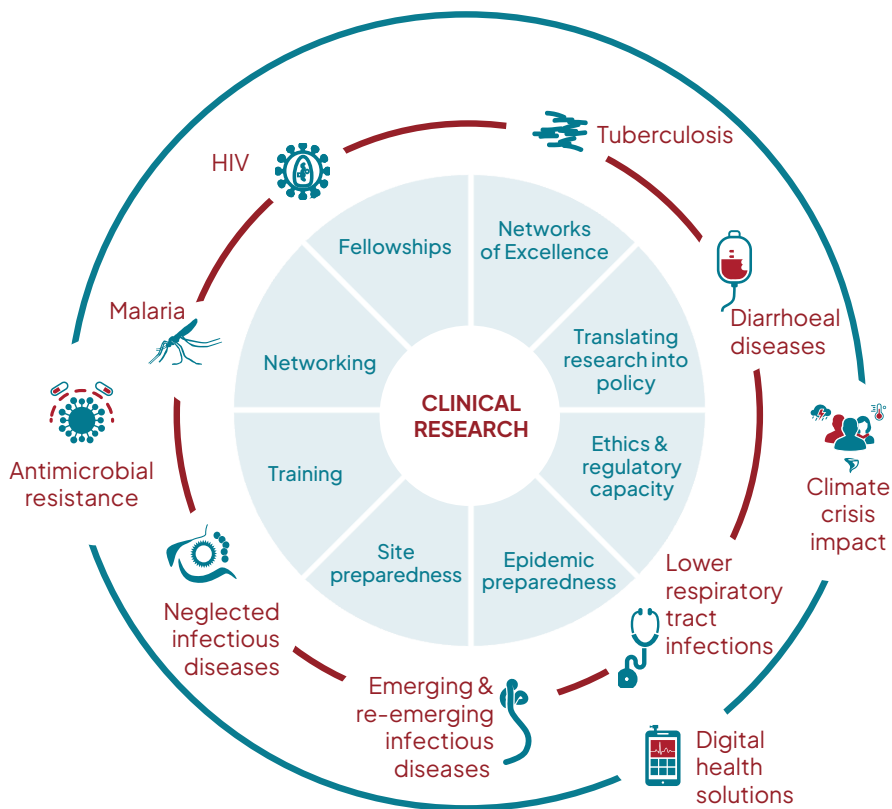

We support all phases of clinical evaluation (phases I-IV), with a particular emphasis on **late-stage product development**.

We also support research capacity development and networking activities, and strengthen **global health security**.

Our funding is provided through **competitive calls for proposals**. Eligible applicants must be established in:

- Member States of the European Union and their Overseas Countries and Territories
- Countries associated to the European Union's Horizon Europe programme
- Countries in Africa that are members of the EDCTP Association.

What we fund

Building on success

— EDCTP1

2003–2015

Focused on clinical trials and research capacity on HIV/AIDS, malaria and tuberculosis.

— EDCTP2

2014–2024

Expanded to include neglected infectious diseases, diarrhoeal diseases, lower respiratory tract infections, and epidemic preparedness.

— Global Health EDCTP3

2021–2031

Greater focus on later-stage clinical trials, vulnerable populations, global challenges and solutions including: epidemic preparedness, climate and health, antimicrobial resistance and digital health technologies.

Get involved

Researchers & institutions

We fund clinical research and innovation projects on infectious diseases in sub-Saharan Africa.

Visit our website to learn about our funding opportunities.

Contributing partners

We collaborate with a wide range of public and private partners to ensure alignment and promote synergies and cooperation through joint initiatives.

Read our guide for contributing partners.

Expert evaluators

We are always on the lookout for expert evaluators to help us assess project proposals, monitor ongoing grants, and support us in technical and scientific assessments.

Register to become an expert evaluator.
