

Annex 2: List of organisations rejected as Contributing Partners and their letters of endorsements.

Non-eligible letters in selected projects

These letters meet all legal requirements and were submitted by organisations participating in selected projects but, as public entities based in an EDCTP Association member state (a status that makes them an affiliate to a constituent entity of a member of Global Health EDCTP3 under the founding regulation)-, they cannot legally become contributing partners. Their contributions could be reported as in-kind contributions to operational activities of the EDCTP Association.

The total value of their declared contribution is **EUR 11.535.313**
